WAINWRIGHT, ALBERTA, WEDNESDAY, MAY 24th, 1922.

PRICE \$2.00 Per Year in Advance.

MOTHERS' DAY DULY OBSERVED AT ST. ANDREW'S

A beautiful Mothers' Day service observed on Sunday morning at St. Andrew's church, when a special service was held for the occasion. The church was suitably decorated with flowers, and the elder girls presented to each of the congregation a flower in memory of their mothers.

The following was the list of numbers—Opening song, Prayers; class; recitation, Phillip Stuart; recitations, junior girls, Agnes Horne and Muriel Shelton; other officers were Alexander Horne, Edith Wright, Vera Stuart and Katie Horne.

Special appropriate music interspersed the numbers, this being attractively rendered by the juvenile choir.

A PERSONALLY CONDUCTED TOUR TO PACIFIC COAST

Attractive personally conducted tour to the Pacific Coast is offered by the Canadian National Railways, at a minimum of expense, for persons desiring to take an educational or recreation trip this summer.

A special train, consisting of the most modern equipment, will leave Winnipeg 11:30 a.m. June 30th, running through to Prince Rupert. Stops will be made at various points of interest en route including Watrous (Little Lake Manitou), Saskatoon, Wainwright, (Buffalo Park), Edmonton, Jasper, (National Park), where party will visit the new Jasper Park Lodge, take a trip to Maligne Canyon; while canoeing on Lac Beauvert, horseback riding and dancing may also be indulged in; Mount Robson; Kananaskis, an old Indian village with its many specimens of totem poles, and old fashioned graves; one of the salmon canneries; and other interesting points where special entertainment will be provided by the party.

At Prince Rupert the party will make direct connection with the S.S. "Prince George" for a side trip to Ayvoos (Observatory Inlet) and return, at a slightly additional cost, for those who may desire, or passengers may remain over at Prince Rupert, taking this boat south from there at 12:00 midnight, July 6th, for Vancouver, Victoria or Seattle, returning from Vancouver via Canadian National Railways direct or via any other route from Seattle.

Specially reduced summer excursion fares, including meals and berth on special train and on steamships, will be available for this tour.

Passengers from branch line points should purchase excursion tickets via Prince Rupert, making connection with the special train at nearest convenient point on main line Grand Trunk Pacific Division.

Never before has such an attractive tour at such low cost been offered by any railway. For special folder outlining itinerary rates, reservations, etc., apply to any agent of the Canadian National Railways or to W. J. Quinlan, D.P.A., Winnipeg; J. Madill, D.P.A., Edmonton; W. Whistler, D.P.A., Saskatoon.

FABYAN FARMER HAS BAD FIRE

Mr. Chas. Lundberg, who farms north of Fabyan had the misfortune to lose his house and all the contents on Friday morning last. He was working in the field some distance from the premises shortly after breakfast and saw flames coming from the roof. Before he could reach the blaze it had gained such headway that the whole thing was burned to the ground. It was only partially covered by insurance.

Lien Note Books at The Star office. If you use these, call in.

PREPARING FOR THE SUMMER CAMPS

Quite a few of our townsmen are preparing to close up their town homes and move to the lakes for the summer. Mr. R. Snyder's cottage is in course of construction at Clear Lake, Mr. W. Washburn has purchased the Clute cottage at Normandina Lake, and Mr. A. E. Mills is building an addition to his. Several other townsmen are planning to spend part of the summer months at Normandina Lake on account of the nearness to town and the better accommodation for campers.

ANOTHER INDUSTRY FOR WAINWRIGHT NOW UNDER WAY

During the past few weeks, Mr. Ben Vallings has been very busy fixing up his little dairy on his farm in the Ribstone creek.

Mr. Vallings, who is fully familiar with the many processes required in his art, has fully tried out his machinery, etc., and it is more creditable to him that this is all home-made.

TREE PLANTING NOW IN SEASON

This is the season of the year when tree planting is being actively carried on throughout Canada. In Ontario and Quebec, farmers are improving their woodlots by planting seedling trees sent out from the provincial forest nursery stations at St. Williams and Berthierville, respectively; and in both provinces there is considerable activity in regard to municipal forests, particularly in Ontario, where the first planting work is being done on some of the newly established county forests. The Prairie Provinces about five million seedlings and cuttings all told, will be sent out from the Indian Head and Saskatoon forest nursery stations of the Dominion Forestry Branch. These are all for planting shelter-belts on farms. Besides this, these same nursery stations are sending out a considerable quantity of planting material and tree seeds for planting and sowing on different Dominion forest reserves. This is only a beginning in reforestation, but it indicates that the tide is at last turning in that direction.

"We can save money by not advertising," replied the advertising man, "and you can also save money by not eating."

GOVT. GRADING OF HOGS DELAYED ON DOMINION ORDER

Government grading of hogs according to the plans mapped out at the conference of Dominion and provincial governments, packers and producers held in Ottawa last fall, will not begin the first of the month as had been announced. At any rate the government graders will not be on duty.

Provincial government officials and packers have been waiting for information on this point, and finally, as the time was very close, a wire was sent to the Dominion government asking information. The reply was to the effect that the graders would not be out for at least another month. The wire stated that as soon as the positions could be advertised and other arrangements completed, they would be sent out. The grading was decided on as the best means of encouraging the growing of bacon type hogs to supply Wiltshire sides for the English market which is generally conceded to be the best outlet for Canadian bacon. The scheme included a premium to be paid by the packer for such hogs and in order to have independent grading, the Dominion government undertook to supply the graders at each stockyard.

SAVE THE CHILDREN FUND IS A REAL GOOD MISSION OF MERCY

The Canadian Committee of the Save the Children Fund has received so far a little over \$300,000 in response to its appeal. This is indeed quite a splendid contribution to this worthy object, but it would be inhuman to relax our efforts while there are still many thousands of children to be saved. When one considers the immensity of the area which has been stricken by famine, and the dense population of that area, all that Canada could possibly do would not be sufficient to relieve all the actual distress. But it would help. And our national conscience would be clear.

The obligation of the people of Canada to their fellow-men is not by any means met when they have subscribed three hundred thousand dollars. Those who have not yet subscribed should remember that a few good Canadian dollars will go a long way in Russia. They will supply the bare necessities of life to a few children, which is all that the Russian people can expect until order is brought out of chaos and that great country gets back to its normal condition.

The people of Canada are concerned chiefly with the salvation of the little boys and girls, who are not accountable for the terrible condition of their country. The responsibility for the moral obliquity of the Soviet should not be held against the innocents. Send your dollars on a real mission of mercy.

NEW RED CROSS UNITS SPRING UP ALL OVER PROVINCE

Two Calgary schools and twelve at points outside that city have qualified for the bronze medal offered by His Honor Lieutenant Governor Brett, for Red Cross Junior units getting their quota subscription of \$100 per capita towards the new Children's Hospital which has been opened. There are still a number of schools competing for the remaining medals and all hope to get their total amount before the time limit is up.

The new hospital was opened two weeks ago in Calgary and already a number of sick children are being cared for. "The cases which supported by the Juniors are all sent to the Institution where they are given the kindest and most efficient treatment."

The superintendent of Junior Work for Alberta, Miss Jessie Church, reports that new units are springing up all over the province. The members are showing the greatest enthusiasm for the work and are particularly keen about the new children's hospital. The aim of the Junior Red Cross is to give proper medical treatment to sick and crippled children whose parents are unable to afford it.

PLOWING MATCHES AGAIN AROUSING FARMERS INTEREST

Great interest is being shown in the revival of the plowing match as a feature of agricultural society prize lists, and following the special provisions made by the agricultural department for these matches, several agricultural societies in the province are preparing to hold matches in May and June. An address by Prof. J. McGregor Smith, of the college of agriculture Edmonton, on plowing matches, has been printed by the department in pamphlet form and a number of these have been distributed to secretaries of agricultural societies for distribution among members who may wish to enter such a competition.

Teach children what to put in their stomachs rather than where the stomach is, and how to keep their skin clean rather than how many bones they have in their bodies, says a well-known physician.

VICTORIA DAY MAY THE 24th

Victoria! What golden memories hallow the very mention of that queenly name! In myriad hearts it is as deeply graven. As on the marble of a hall of fame. Soldiers and statesmen pass and are forgotten. Swept to oblivion as by restless flood. But ever brighter shines the deep affection. For her the people call "Victoria the Good."

NEW HOMESTEAD MAP ISSUED BY DOMINION GOVT.

The total number of quarter-sections of Crown land still available in each township is shown on the 1921 edition of a Land map of Manitoba, Saskatchewan and Alberta recently issued by the Department of the Interior, likewise the number of quarter-sections of unoccupied and uncultivated lands held in private ownership that are purchasable from the non-resident owner. This latter feature, showing at a glance what lands are for sale, should prove of great service to the land seeker. Supplementary to the map, the Department has had compiled for each district, lists containing information as to the price asked for the land, terms of sale, nature of soil, acreage fit for cultivation, value of buildings and other matters helpful to the prospective purchaser. With such information in his possession the intending settler may then negotiate with the owner of the land.

Another important feature of the map is the Railway Belt information which has been shown in three different shades of color on each side of all railway lines, to indicate land within 10, 15, 20, 25, 30, 35, 40, 45, 50, 55, 60, 65, 70, 75, 80, 85, 90, 95, 100, 105, 110, 115, 120, 125, 130, 135, 140, 145, 150, 155, 160, 165, 170, 175, 180, 185, 190, 195, 200, 205, 210, 215, 220, 225, 230, 235, 240, 245, 250, 255, 260, 265, 270, 275, 280, 285, 290, 295, 300, 305, 310, 315, 320, 325, 330, 335, 340, 345, 350, 355, 360, 365, 370, 375, 380, 385, 390, 395, 400, 405, 410, 415, 420, 425, 430, 435, 440, 445, 450, 455, 460, 465, 470, 475, 480, 485, 490, 495, 500, 505, 510, 515, 520, 525, 530, 535, 540, 545, 550, 555, 560, 565, 570, 575, 580, 585, 590, 595, 600, 605, 610, 615, 620, 625, 630, 635, 640, 645, 650, 655, 660, 665, 670, 675, 680, 685, 690, 695, 700, 705, 710, 715, 720, 725, 730, 735, 740, 745, 750, 755, 760, 765, 770, 775, 780, 785, 790, 795, 800, 805, 810, 815, 820, 825, 830, 835, 840, 845, 850, 855, 860, 865, 870, 875, 880, 885, 890, 895, 900, 905, 910, 915, 920, 925, 930, 935, 940, 945, 950, 955, 960, 965, 970, 975, 980, 985, 990, 995, 1000.

Mennonite Land Is Taken Up By 1000 Polish Settlers

Saskatoon—According to information gleaned from several sources here tonight it is understood that 5,000 acres of the land in western Saskatchewan, abandoned by the Mennonites who fled to Mexico, has been purchased on behalf of a colony of 1,000 Polish settlers, who will come to Saskatchewan in the near future from Chicago.

The Right Rev. G. Eaton Lloyd bishop of Saskatchewan, speaking in an address to an audience of more than 200 great war veterans, referred to this project as disgraceful and declared that if the authorities allowed such action to be permitted, while closing the doors of the country to settlers of British birth, under the British empire colonization scheme, they should be ousted.

"As a direct result of the proposal of Sir Clifford Sifton, to bring in one million settlers per year from Central Europe, 'to make the railways pay,' a mass meeting in protest is being called for in the near future."

COMPLAINTS AGAINST POUNDKEEPERS

Complaints have been received by the department of agriculture that in some cases where cattle have been impounded, these have been sold without being fully or properly described in the advertisements. The department will proceed to take steps against any poundkeeper found guilty of improperly or insufficiently describing animals impounded and to be offered for sale.

IN MEMORIAM

In loving memory of my dear father William Rankin, who passed to his reward May 22nd 1915, inserted by his daughter, Gladys.

EDMONTON HOTEL NOW INSTALS NEW RADIO OUTFIT

Edmonton will again substantiate its reputation for enterprise when the radio installation at the Abe Crystal Hotel is placed in the Royal George Hotel is operating. The set, which is a valve detector instrument with a three step amplifier, will be equipped with a magnavox. The building will carry two masts at a distance of 125 feet, between which will be strung a two wire aerial at an estimated height of 100 feet above the street level. The installation will be one of the finest in the city and Hilla electric company, who are putting it in, claim it will pick up phone messages for 500 miles, and Morse for over 2,500 miles. In this case time signals from Annapolis and West Point will be heard, and also signals from the big Polson station at San Francisco.

It is the intention of the hotel company to operate the set in the lounge room for the benefit of its guests. Calgary and possibly Winnipeg concerts will be picked up, and later Morse from the Eastern points, will be copied and the latest press news, issued by bulletins to its patrons, and if this proves a success, a larger set may be installed at a later date. This would make possible the carrying on of conversations from European cities and boats plying between American and European points. It is understood that this is the first hotel in the west to adopt radio for the convenience of its guests.

Germany is run very economically in the matter of salaries for President and Ministers, the salary of the former being the lowest paid to any head of State in the world.

PREMIER ISSUES OFFICIAL STATEMENT -NAT. RESOURCES

Pointing out that the Alberta government might not be any better off for a few years at least with the administration of its own resources on its hands, and also setting up a very definite claim for compensation for certain land alienated by the Dominion government prior to 1905, Premier Greenfield has issued an official statement on his negotiations with the government at Ottawa during the recent conference with reference to the transfer of the natural resources. The official statement is as follows:

"Representatives from the three Prairie Provinces met in Ottawa on April 19th at the invitation of Premier W. McKenzie King, to discuss the natural resources question, following his letter of February 19th. The first few sessions were taken up largely in an effort to define certain general principles to serve as a basis for negotiating an agreement. For obvious reasons we allowed the Manitoba and Saskatchewan representatives to take the lead in the discussions during the first few sessions."

PROV. GOVERNMENT ISSUES SECOND CROP REPORT

Northern Areas—All wheat seeding is completed and most of the crop is above ground. Seeding of oats and barley has been delayed in some districts by rain-falls, but generally speaking is about 50 per cent. completed. The moisture conditions are fairly good. There have been recent showers in many localities, but in others the soil is still rather dry.

Livestock Conditions—Pasture lands and hay crops are in need of moisture, and livestock is not improving a splendid growth, however, and with June rains, there should come a very rapid improvement in condition of stock.

Mr. and Mrs. A. Sawers, were visitors to Edmonton on Sunday last. The new sport hats are now in at the Women's Specialty Shop. See these.

FILLING THE VACANCIES IN PROVINCIAL HOUSE

It is expected that the bye-elections to fill the three vacancies in the provincial legislature existing in Whitford, Sedgewick and Ribstone, will be held during the month of July. These vacancies were created by the resignation of Hon. Chas. Stewart in Sedgewick to enter the Dominion Cabinet, the unseating of A. S. Shandro in Whitford, and by the death of C.O.F. Wright of Ribstone, shortly after the session ended.

COURT OF REVISION STUDIOUS SITTING; CANNOT REDUCE

Council spent a busy time on Thursday last when the annual court of revision was held, and a large number of appeals were dealt with.

The greater number of these, however, were claims against too high valuation of vacant lots, and it was shown that although in some cases assessed values might appear to be too great, the assessment of the whole of the town area was set on a proportionate basis, and for this reason nothing could be done until next year in the matter of reductions. Just one property, with an erection thereon was fortunate enough to get a reduction of \$50 in the assessed valuation.

ANNUAL NOUISANCE OF NEIGHBOR'S STOCK HAS COMMENCED

This is the season of the year when, after having toiled to get your garden plowed, harrowed and seeded to your satisfaction, the neighbor's cow comes along and tramples over everything. In a short time it will be the neighbor's chickens who will pay their daily calls. A person no sooner gets imbued with the spirit of springtime than another set of annoyances crop up to take the joy out of life. The composer responsible for that one-time popular song "I Love the Cows and Chickens" was not referring to his neighbors, or we are badly mistaken. There are by-laws in force with a view to prevent these depredations; why not then, after you have finished telling the town your opinion of her, courteously advise the owner of the offending animal and if this fails inform the authorities of your troubles; so that they may take action to prevent a recurrence.—Ex.

CATTLE ROUNDUPS.

Attention is called to the fact that requests for round-ups of cattle, before being granted by the minister of agriculture, must be signed by at least ten persons who shall be responsible for the conduct of the roundup in accordance with the regulations.

BILL HART WESTERN STATION AGENT IN NEW FILM "SAND"

How would you like to step up to the ticket office in your hometown railroad station and have the keen eyes of William S. Hart the famous screen star, look out at you through the grating and hear the "two-gun man" ask, "Where to and how many, please?" Bill tries station-agenting for a while in his new picture, "Sand" which is coming to the Elite theatre. He gets in a mix-up over a certain cracked safe with the local "bad man", and, since the latter is a big power with Hart's boss, the new agent is fired. But Bill doesn't mind it a bit, and goes back to his old game of cow punching. There he has some exciting adventures, not to speak of a delirious little love affair, and in the end is able to show up his enemy and win the girl. The final is a daring escape train hold-up, said to be striking in its realism.

Bill Hart's famous pinto pony, absent from the screen for two years, is back with its master, in "Sand" Mary Thurnman, a pretty recruit from light comedy roles, is the leading woman. The picture was directed by Lambert Hillyer.

NEW DIRECTOR OF PROVINCIAL EXTENSION WORK

Announcement has been made by the Hon. Geo. Hoadley, Minister of Agriculture, of the appointment of Miss Jessie McMillan, late of Aberdeen, Scotland, and more recently secretary of the ocean travelling staff of the Dominion Council of the Y.W.C.A. to be the new director of extension work for women's societies, under the provisions of the new women's institute act. Miss McMillan will enter upon her duties at once. She has been residing in Edmonton for the past few months.

Miss McMillan is a native of Edinburgh, and was educated in the schools there. She is a graduate also of the Heriot Watt College and the Edinburgh school of domestic economy. Since graduating her experiences have carried her into many and varied fields of endeavor.

THE EXAMINER'S WEEKLY REVIEW OF PROVINCIAL MARKETS

(Thursday May 18th, 1922)

Beef—Good demand at Edmonton, and choice quality steers kept prices steady with last week; most choice heavy and light steers, \$6.50@7.25, with few choices heavy and baby beef, \$7.50@8.50; good butchers, \$6@6.50; medium, \$5@5.75; choice cows, \$5@5.75; good, \$4.25@5.55; medium, \$3.50@4.50; common, \$2.50@3.50. Choice heifers, \$5.75@6.50. Not many bulls or oxen; choice fat bulls from \$3.50 down. Calves in demand, higher at \$10 for choice veal and bulk of good ones, \$8@9; common, \$6@7. Feeders and stockers—Demand is best from buyers outside the province, for shipment east and across the line. Choice feeders from \$5.50 down; good, \$4@5; stocker steers, \$3@3.50; stocker heifers, \$2.50@3.50; stock cows, \$2@3.

HOGS
Edmonton market has been firm, and Wednesday's prices were \$12.35@12.50.

Government announces hog grading to start on May 25th.

SHEEP
Keen demand for sheep at Edmonton and prices higher; lambs, \$11@13; wethers, \$9@11; ewes \$7.50@9.

GRAIN
Generally crop conditions in the west are satisfactory. There are extremes of moisture in some parts of Manitoba, where there has been flood damage, but in the other two provinces conditions are favorable. Some parts of Alberta have not any too much moisture, but no suffering yet. Grain prices have been holding fairly steady, with Liverpool still buying fair supplies.

PRODUCE
Butterfat—Prices unchanged; quality improving, but receipts not increasing very fast in Edmonton territory. Creamery Butter—Prices unchanged, but tendency of market is lower. Cheese—Eastern market weaker, but local selling prices unchanged yet; export business expected to open in June. Eggs—Prices unchanged at 27c for extras; 28c for No. 1, and 18c for No. 2. Some cars have been shipped east. Manitoba and Saskatchewan prices looking weaker. Poultry—Very little moving.

HAY
Business quiet; dealers paying farmers \$17@22, according to shipping point.

PROVINCIAL HEALTH DEPARTMENT TO GIVE BIG DEMONSTRATION

The U.F.A. have completed arrangements for two lectures to be given in the theatre on May 29th and 30th, and at these Mrs. E. Clark, sup. of the Public Health department, will be the speaker. The first will be after a special picture show and the subject "Communicable diseases" should prove an attraction, while the second, held on the afternoon of the 30th will be a demonstration of "Home nursing." Both should draw a large audience.

Genuine
BAYER
ASPIRIN

WARNING! Say "Bayer" when you buy Aspirin. Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances?

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds Headache Rheumatism
Toothache Neuralgia Neuritis
Earache Lumbago Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Distributors.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mono-acetic acid of Salicylic acid. While it was known that Aspirin was a Bayer product, the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

The Fearless Lovers

— BY —
ARTHUR APPLIN

London and Melbourne.

(Continued)

He had recovered his self-control; they were alone now. It seemed too good to be true. The thing he would have given half the years of his life to happen had come to pass. He had found the only woman in the world that mattered.

"I saw this beggar lass while I was fishing the Inverness water below. The temptation was quite irresistible."

"You should have resisted it."

"Thank heaven I didn't."

She laughed. He was delighted; the first original man she had met. All her friends and companions came out of the same mould, fashioned alike in mind and body. He was like the country in which they found their selves: rugged, invigorating; full of surprises—storm and sun-sets.

"If you give me any more impulses that makes you'll get into trouble, I'll trouble one day, Mr. Lion."

"There's only one impulse left to which I want to give expression," he said, putting his pipe in his pocket and taking a step towards her. "I don't move but she looked at him gravely. "Do you realise your pipe is alight? You'd find yourself on fire in a few moments."

"Perhaps some thing warmed her to the nature of his last impulse. He had not meant to discuss his emotions, and his face mirrored his thoughts."

"I'm not afraid of fire—are you?" he replied quickly.

"I don't believe you're afraid of anything."

"Oh, yes, I am. Afraid of life for one thing. I've been learning it, but now I've got to live it."

"Where?"

"In the House of Commons—unless the electors of West Kingston show unusual intelligence. And then, I'm a bit afraid of you."

"That's absurd. You don't know me."

"That's why I'm frightened. One always fears the unknown."

She glanced over her shoulder. The gillie was out of sight. She was breaking all the laws of the Flamingo and polo society by carrying on a conversation—which dangerously approximated to a flirtation—with an eccentric and fascinating young man trespassing on her father's estate.

"I'm afraid I shall have to leave you with your fears," she said.

She raised her eyes to his for a moment, then looked quickly away.

He was not really afraid; he was, a little.

"Duncan has disappeared; they'll be wondering what has happened to me—it's tea time."

"Then have tea with me."

He took a thermos flask from his case and a paper parcel from a pocket in his fishing coat. "The hotel calls it luncheon, but it consists principally of baps and cookies. And I always take tea in preference to beer when I'm fishing."

He spread his Burberry on the ground. "Sit there and let me wait on you."

"I couldn't think of such a thing. Even if I could I wouldn't take a hungry man's luncheon at four in the afternoon."

Edward knelt down and began to unpack the parcel. "I insist. I—I've been looking for you ever since we met on board your yacht. Now I've found you I'm not going to let you go. By the way I don't know your name. Won't you tell me?"

His simple and naive way of saying unconventional things was charming.

"Daphne Mullaly is my name; but I don't suppose we shall meet again, Mr. Lion—though when you're in Par-

ton had taught her as being suitable for troublesome young men. "We shall be leaving Scotland shortly for London. I don't think it likely we shall meet again." She glanced at her wrist watch. "I'm afraid I must be going home now, so will say good-bye."

She gave him a cold little nod of her head and turned away. She noticed that Duncan was sitting with his back to them now—presumably that he might shelter the pipe he was trying to light. Though she had said that no one ever knew what Highlanders thought, everyone knew they had eyes in the back of their heads.

Edward did not reply to her farewell. He had made her feel angry and ashamed; yet she felt a sudden sinking at her heart. She had never meant to say good-bye. She knew she wanted to see him again. It was true they had been friends. Until that moment she had never realised how happy the past few days had been. As a rule time hung heavily on her hands. The last ten days had gone in a flash.

She dropped her handkerchief and stopped to pick it up. She was terrified to see that her hand was never saw him again. He was the first real man she had met. How real she knew a moment later. He did not speak a word, but suddenly she felt her arms seized. He swung her round, then took her hands and held them tightly. "You don't think you're going like that?"

"She was too surprised to speak. If the tone of his voice startled her, the expression in his eyes frightened her."

"You must know," he continued speaking more calmly, but in incisive tones which she was sure would reach Duncan. "You must know that your friendship is a perfect feast of Scotch cookies on a white napkin; Daphne looked at them—and hesitated. Her luncheon had consisted of a ham sandwich provided by Duncan, and a drink of water. Edward had risen; he unscrewed the cap of the thermos and filling it with tea held the steaming beverage out to Daphne."

She sniffed. The aroma was tantalising. She was dreadfully tempted. But she shook her head. "I should advise you to start with a buttered scone and progress to the baps which contain bramble jam. Do so."

He held the cup of tea closer. Daphne sighed—and slowly sank to the ground. Then she laughed. "It's heavenly," he replied fervently, sitting beside her. "Have a cookie?"

CHAPTER III.

Lady Daphne found Edward Lion very amusing. She had never met anyone like him before. All the more she knew differed not at all from the other save in personal appearance—and very little in that. They talked of the same things in the same kind of voice, followed the same sports and played the same games, held the same opinion on every subject and wore the same clothes. They held the same cup of tea, the same thermos, the same baps and cookies, and those who proposed to be used the same formula. None of her suitors had ever told her they loved—she had refused them before they had an opportunity of blurring out this intelligence.

She found herself wondering how Edward would propose. Supposing he fell in love with her she knew his declaration would be fierce, passionate, triumphant. Of course she did not mean to let him fall in love with her and yet she was dreadfully attracted and he possessed a very strong will of his own.

Sometimes she felt a little afraid of him. It was extraordinary how kind Chance was to them. He would persist in fishing and lighting a pipe at night. If it had rained then the duke would have flogged the river and Daphne herself felt a little afraid at night. If it had rained then the duke would have flogged the river and Daphne herself felt a little afraid at night.

Edward grew to hate the gillie. The old man always retired to a respectful distance and lighting a pipe sat on a rock or a hillock and waited for his young mistress.

"Is it you get to the top?" Edward suggested one day. "I hate the way he always sits just thirty yards away and glowers at me. Does he think I'm going to rob you or run off with you?"

"He's a Highlander. No one knows what he thinks."

"I'd like to tell him what I think. Of course if he was your father it would be different."

"I would," Daphne laughed. "Father wouldn't sit thirty yards away on a rock."

"I want to meet your father," Edward said. "I suppose he knows we're friends."

Daphne blushed and instantly she became angry with Edward for making her blush and lighting a pipe at night. If it had rained then the duke would have flogged the river and Daphne herself felt a little afraid at night.

"Is it you get to the top?" Edward suggested one day. "I hate the way he always sits just thirty yards away and glowers at me. Does he think I'm going to rob you or run off with you?"

"He's a Highlander. No one knows what he thinks."

"I'd like to tell him what I think. Of course if he was your father it would be different."

"I would," Daphne laughed. "Father wouldn't sit thirty yards away on a rock."

"I want to meet your father," Edward said. "I suppose he knows we're friends."

Daphne blushed and instantly she became angry with Edward for making her blush and lighting a pipe at night. If it had rained then the duke would have flogged the river and Daphne herself felt a little afraid at night.

"Is it you get to the top?" Edward suggested one day. "I hate the way he always sits just thirty yards away and glowers at me. Does he think I'm going to rob you or run off with you?"

"He's a Highlander. No one knows what he thinks."

Canada's Crucifixion

How the Canadians Helped the

Germans at St. Julien

North, over the border, today, in every community, the citizens of the Dominion are holding commemorative services for the sons of the Empire, lying in Flanders Fields, who held the line for liberty from April 22 to April 24 seven years ago. In proud and loving memory mothers and fathers of these heroes recall the battle of battles of the world war, in which the picked conscripts of continental Europe hurled themselves for three consecutive days on the flower of youth of Canada, and in the end retired baffled, leaving on the field three 10,000 dead.

The true story of the world's salvation from militarism by that little band of stalwart youth, known as the First Canadian Division, history will tell. The battle of St. Julien was the start of a series of displays of Canadian heroism and efficiency that marked the Flanders and Picardy campaigns of the great war wherever emergency occurred, and which has added to the glory of patriotic achievement the events chronicled by the names of Vimy, Cambrai and a score more.

Unstated men from farm and factory numbering less than 10,000 had been placed between two French armies to block the enemy's determination to achieve the French channel ports. To Van Falkenay's command, his German troops to maul the Canadians and break through, no matter the cost an answer was given which ranks St. Julien with Thermopylae and the Alamo, with the difference that St. Julien had her vengeance of victory, albeit they numbered but 400, all that was left of Canada's vanguard in the fight for civilization.

Deserted by the Algerian corps on its left; its right bared by the retreat of the "extreme eastern French wing," this plucky army stood, defying the repeated charges of the magnificent Prussian Guard, 10 service battalions of which dissolved themselves against that unbreakable human wall; scornful silks of gas and bomb these Canadians fought for 72 hours to achieve the result their commander "curtly ordered in the words: "The line across St. Julien Wood must be held. The Canadians will hold it."

And when, after the three-day agony, the third British army came to the relief and the battered men of the western continent marched out, no more inspiring sight was ever witnessed than the little army passing through in facing serried ranks of seasoned British warriors, each rigidly standing at the "present."

The salute of St. Julien is Canada's forever!—The Cleveland (Ohio) Commercial.

Locating Empire War Graves

Over 600,000 Registered to End of March, 1921

It is stated in the annual report of the Imperial war graves commission that of the total British dead casualties of approximately a million during the war (including Dominion, Indian and colonial forces) some 619,000 graves had been located and registered by March 31, 1921.

The areas into which the battle zones of France and Belgium are divided for the purposes of the commission are, among other facts, mentioned in the report. The headquarters have been established at St. Omer, with branch offices in each of the five areas into which the country has been divided.

In the future the work of the commission is further advanced than in any other theatre of war, and there will be some nineteen main cemeteries, constructed on which, it is hoped, will be completed this month.

In Egypt the work of concentrating isolated graves has been completed, although some few scattered graves in the western desert and in the Sudan remain to be brought in. It is proposed to erect a general memorial to the members of the Egyptian Labor Corps, who were taken to the Sudan by the Egyptian Transport Corps who laid down their lives.

Palestine will have eight main cemeteries; Macedonia, 10; Gallipoli and the Aegean, 38, containing some 16,000 known graves. There are also some twenty thousand soldiers with no known graves in this area, and the method of commemorating them is under consideration. Over seven thousand graves have been located and identified in Mesopotamia.

Fiji Island Chief an Oxford Man

One of the chiefs of the Fiji has a remarkable record. Descendant of a famous line of chiefs, he is also an Oxford graduate, served as cook with the R.M.A. Corps in France in 1916, and later as a clerk with the Royal Scotch Borders. He has been medaled by King George for bravery. Despite his good running start, he had deserted civilization and returned to the South Pacific to live among his fellow Fiji Islanders.

Dreadnought to be Sold

In compliance with the terms of the naval treaty signed at Washington, the dreadnought Erwin was put out of commission at Sheerness and ordered sold.

In spite of its great length and the large area it encloses the Erwin Tower is comparatively light, weighing only 8,000 tons.

W. N. U. 1429

MAGIC BAKING POWDER

Guaranteed to be the purest and best baking powder possible to produce. Because of the purity and high quality of the ingredients of Magic Baking Powder its leavening qualities are perfect and it is therefore economical.

E.W. GILLETTE COMPANY LIMITED
WINNIPEG TORONTO, CANADA MONTREAL

Biggest Steam Boiler

Going Full Blast Uses 18 Tons of Coal An Hour

The biggest steam boiler in the world has been built for the Edison firm.

We are told this boiler can convert 24,000 gallons of water into 200,000 pounds of steam every hour, and this is steam enough to heat comfortably more than 1,000 large residences in the coldest weather, or to develop 29,362 horse power!

If the coal box of this huge boiler could have its grates floored over, a square dance could be gone through on it without overcrowding.

It will take 36,000 pounds, or 18 tons of coal an hour to keep it going full blast.

Think of having to tend this monster when you hate to make up the stove or home furnace at night!

He Is Satisfied With the Results

THAT'S WHY HE PRAISES DODD'S KIDNEY PILLS

Quebec Man Who Suffered from Bright's Disease, Diabetes and Backache Gave a Thorough Trial to Dodd's Kidney Pills.

St. Prosper, Dorchester Co., Que. (Special).—Mr. Joseph Larochelle, well known and highly respected here, is telling all his friends of the satisfaction he got from the use of Dodd's Kidney Pills.

"I suffered for many years from Bright's disease, diabetes, backache and headache," Mr. Larochelle writes. "I took from 10 to 15 boxes of Dodd's Kidney Pills."

"I can tell you I am satisfied with the results. I advise all who use Dodd's Kidney Pills to take enough to agree them well."

Dodd's Kidney Pills have been in use in Canada for more than a quarter of a century. They are known by the good they have done.

Ask your neighbors if Dodd's Kidney Pills do not make healthy kidneys.

Hard to Pay For

When the United States, before the war, sold a reaper to a farmer in Russia it paid for itself in the grain it harvested. But when, during the war, a hopviter was sold to France and high explosives to feed it with, it harvested nothing but death and spread devastation wherever it rested.

It is not so easy to pay for hopviterizers.—Toronto Star.

Judge—Pat, the evidence shows that you hit this man twice."

Pat—"I did not, y'r Honor. The first time I hit him I missed him."

Bees Work When Gong Strikes

Bees have been trained to start and stop work at the sound of a gong by an English breeder.

Oxygen breathed in by any person can be measured by a newly designed apparatus.

Countries would not be so anxious to enter war if it was operated on the pay-as-you-enter plan.

The world's most crooked river is the Jordan. It wanders nearly 220 miles in order to cover sixty miles.

British Motor Liners

Oil Cheaper than Coal and Vibration Is Minimized

Excellent results continue to be obtained by the oil driven ships operated in Great Britain. Recently a large passenger liner equipped with oil engines completed a round voyage from the United Kingdom to India and back, and the commander of the ship reported that the engines "ran like a sewing machine."

Even at the present heavy price of oil the voyage showed a considerable economy in the cost of fuel in comparison with coal. The passengers benefited from the absence of coaling on the voyage and by the minimizing of vibration. The daily consumption of oil at 14 knots was not less than 18 tons. Another British oil-driven ship proved on her trials that she could run at 13 knots on 16 tons of oil per day. The oil is carried in the double bottom of the vessel and there is sufficient capacity for a voyage of 30,000 miles.

Engage in Business Enterprise

Western Canada women are continually finding novel outlets for the expression of their new independence.

The Ladies' Touring Cars, Ltd., capitalized at \$20,000, has just been incorporated at Vancouver, the Hon. Mary Ellen Smith, member of the provincial cabinet, being president. The company's directors and employees are all women who have driven motor cars overseas, and they will cater to women tourists to the city and district.

SUNDAY SCHOOL LESSON

LESSON FOR MAY 21

HILKIAH'S GREAT DISCOVERY

About a hundred years elapsed between the reformation under Hilkiah and that of Josiah. During this time the book of God's law had been lost. Two wicked kings had reigned in this interval. The Lord had given Hilkiah much wealth. His son Manasseh, coming into possession of his father's property, and being ungodly, would not accept the Bible, if not purposely try to put it from sight. Those who do not obey the law of God are usually interested in putting it out of sight.

I. The Book of the Law Found (vs. 1-14).

1. The Occasion (vs. 14). It was while repairing the temple during Josiah's reformation that the law was discovered.

2. The Book Delivered to the King (vs. 15-17). Upon making a report to the king of work done, the king was told of the finding of the book of the law by Hilkiah, and the book delivered to him.

II. The Effect of the Reading of the Law (vs. 18-28).

1. The King Read His Own Copy (vs. 18-19). As the law was read before him he was led to realize more seriously the awful extent of the nation's departure from God. He knew that sin merited punishment. The function of the law is to reveal sin. The man who will honestly hear the demands of God's law will fall upon his knees and cry for mercy. The reading of the royal robes indicated that the king was penitently sorrowful.

2. The King Sent a Deputation to Make Inquiry of the Lord (vs. 20, 21). The king included himself in the guilt before God. "Do inquire for me and for them that are great in the land, the wrath of the Lord that is poured out upon us." His sense of sin was so keen that he sent them to inquire as to whether there was any means of averting the judgments of the Lord. He was not to be deterred by the threat of God's threatening judgments to seek for sin inquires for a way of escape. The law prepares for the gospel. The law is the schoolmaster to bring us to Christ. The law's condemnation inquires: "What must I do to be saved?"

3. The Message of Huldah, the Prophetess (vs. 22-28). (1) Confirmation of what the law said (vs. 22-25). She said that the law was written in the law must fall, for the law had been so flagrant that God's wrath could not be restrained. Destruction was hanging over Jerusalem and it was too late to avert it. It was not too late to repent, however, for God's love is greater than His wrath. The law is a mirror of sin. The law is a mirror of sin. The law is a mirror of sin.

(2) Acceptance of Josiah's repentance (vs. 26-28). Because of his tenderness of heart and deep penitence, the Lord said he should be gathered to his grave in peace and should not see all the evil to be brought on Jerusalem and its people. What Huldah said was true even though Josiah died in battle (35: 22-25). When God accepts a man and forgives him, his death is a peaceful one even though it may be on the battlefield. God's presence is with him and he thus will go straight to the heavenly home.

III. The Law Obeyed (vs. 29-32).

1. The King Read the Law (vs. 29, 30). He gathered together the inhabitants of Jerusalem, including the priests, Levites and elders, and read to them the law.

2. The King Made a Covenant Before the Lord to Keep His Commandments and Testimonies (vs. 31, 32). This was done sincerely—with all his heart and soul. He and all that were present to stand to it.

3. The King Took away all the abominations out of all the countries that pertained to Israel (vs. 33). All the days of the king they departed not from following after the Lord.

New Trans-Atlantic Cable

Said to Represent Greatest Progress in Cable Construction

Plans for laying a new cable across the Atlantic to Northern Europe have been completed, Newcomb Carleton, president of the Western Union Telegraph and Cable Company announced recently.

The cable, according to Carleton, will represent the greatest progress in cable construction in history. It is the invention of engineers connected with the Western Electric and American Telephone Engineers.

Whereas, the old cables under the Atlantic are capable of handling 5,000 words a minute, the new line, Carleton said, will carry 40,000,000. It will be laid from New York to the Azores and from there to a German port.

Carleton has just returned to the U.S. from England and Germany. He secured a contract with a new German company to co-operate in the new cable management.

The cable will be laid by the summer of 1923, Carleton said.

Camels Live a Century

Camels sometimes live to the age of a hundred years.

Minard's Liniment used by Physicians

A Combination Of Straw And Feathers

Another Toronto home provides evidence of how a simple cut, scratch or bruise may pay the way to deadly blood-poison. Doesn't it show there's a vital need for keeping a reliable antiseptic like ram-buk as handy?

When called upon at 3, Business Men's, Mrs. J. E. Zealley, daughter of the late Dr. Zealley, of St. David's, Wales, said: "My boy Alfred scratched his leg with the brass leg of a shoe lace. A nasty position, sore developed and it defied all the usual ointments. Hearing splendid reports about ram-buk I decided to give it a trial. To my great relief, the pain soon ceased healing to set in. All inflammation and poisonous matter was quickly removed by ram-buk. It healed the sore without leaving a scar."

Again when I fell over a steel fence and injured my knee badly, ram-buk alone saved me. My daughter, a nurse, was of the opinion that only an operation could remove the mass of inflammation and pus which had formed. But ram-buk again pinned my faith to the ram-buk. It cleaned and healed the wound in a few days. Equally valuable for eczema, pimples, cuts, burns, etc."

A crown of straw, a brim of feathers, in loosely drawn strands, make up this charming little hat, which, more to the point, is a decidedly stunning model in the eyes of most women. The disk of straw which adorns the peak makes it distinctly Russian in mode.

The Chief Danger

"Are you going any further West?" "I want to go so," said the foreign visitor. "Is there any danger from Indians?"

"Not if you keep out of the way of their motor cars,"—Birmingham Age-Herald.

How Lloyd George Got Even With the Chairman

A correspondent sends us the following little anecdote illustrating Lloyd George's ready wit. On one occasion when he was to address a meeting in South Wales, the chairman, thinking it was funny at the speaker's expense, said in introducing him, "I heard so much about Mr. Lloyd George that I naturally expected to meet a big man in every sense, but, as you can see, he is very small in stature."

Lloyd George arose. "I am grieved to find," he said, "that your chairman is disappointed in my size, but this is the way you have here of measuring a man. In North Wales we measure a man from his chin up, but you evidently measure him from his chin down."

After that the chairman made no more personal remarks.

THOUSANDS CONVERTED

Through ignorance, many have suffered aches and pains long thought incurable. But doubt quickly turns to belief when sciatica, lumbago and neuralgia are healed with Nerviline. It's soothing healing powers are really wonderful. Nerviline sinks in quickly, it penetrates into the sore muscles and brings grateful relief. The hundred and one minor ills that come to every family yield quickly to Nerviline. Try it. 5c at all dealers.

Would Remove Embargo

Former British Agriculture Minister Desires to Lift Stigma from Canadian Cattle

Lord Erle, former minister of agriculture, writing to the London Times with regard to what passed at the Imperial conference of 1917 concerning the Canadian cattle embargo, says he has before reaching a final conclusion would have to consult his Irish colleagues.

"A definite pledge, therefore lies, if anywhere, in the resolution of the Imperial conference," Lord Erle states.

Continuing Lord Erle says he believed that a change of policy would be forced upon them by the activities of the German submarines. The necessity of supplying the country entirely from the home sources was contemplated at that time, and while the country could have held out for two years, the cattle supply had been cut to the bone. Of two alternatives in that case, in the rebuilding process, Lord Erle said the admission of Canadian cattle would have been chosen but immediate action was required and Canada would have been unable to supply the United Kingdom with anything like the number required under two years. However, the danger gradually receded and the country emerged with its cattle supply intact.

Lord Erle says while the admission of Canadian cattle to that country is not required by conditions of the cattle breeding industry there, he is prepared to favor the removal of the unfair stigma of Canadian cattle being infected by disease by admitting for a definite period of years a limited number of stock cattle.

Shackleton Buried March 5

Captain L. Huxley, of the British Antarctic expedition ship Quest, returned to Montevideo from Georgia Island, the gateway to the Antarctic, where he buried the body of Sir Ernest Shackleton. He reports that the burial took place at Grytviken, March 5, in the graveyard of the little English Church, without ceremonies.

Conscientious Citizen

He who regards his citizenship as a sacred trust must inform himself about public questions, the principles and policies of parties and the qualifications of candidates. He must vote according to conscience in every election. He will obey the law, even when not in sympathy with all its provisions. He will respect the rights of others to hold convictions differing from his own.—Detroit News.

Sea Invades British Coast

In the past few years more than 3,000 acres of the English coast have slipped into the sea.

Elephant Matures at 40

The elephant does not reach full maturity until it is forty years old.

A Double Escape

DOCTOR'S DAUGHTER'S STORY.

Another Toronto home provides evidence of how a simple cut, scratch or bruise may pay the way to deadly blood-poison. Doesn't it show there's a vital need for keeping a reliable antiseptic like ram-buk as handy?

Canadian Authors' Association

Montreal Branch Now Numbers 129 Members

The annual meeting of the Montreal branch of the Canadian Authors' Association indicates progression in both membership and influence. Among those entertained by the branch during the past year were Mr. Bliss Carman, Mrs. Nellie McClung and H. M. Meredith.

The branch, which now numbers 129 members, will hold monthly informal meetings during the coming year.

A Cordial

INVITATION TO DISEASE

This is an apt description of Constipation. It's an unnatural condition. It begins with a dangerous because it leads to indigestion, fills the system with poisons, brings on anemia. You don't need a purgative. You don't need to weaken the system by a harsh gripping medicine. You need mild natural stimulants to the bowels. You get just what you need in Dr. Hamilton's Pills. They act on the liver, restore the bowels to perfect action and positively end constipation. You'll feel tip top after regulating your system with Dr. Hamilton's Pills. Good for young and old—a real family medicine. 25c all dealers or The Catarhizone Co., Montreal.

Price Sends More Stock

Horse Valued at \$55,000 Sent to Royal Ranch in Alberta

Four purebred race horse stallions and five mares have recently been shipped by the Prince of Wales from England to his ranch at Beddfield, Alta., which he bought when he visited Canada in the summer of 1919.

One of these stallions was purchased in England recently for \$55,000. Since His Royal Highness has had his Alberta ranch he has made several shipments of purebred stock from the Old Country. The last consignment of horses was sent over in charge of a special staff from one of his English ranches.

An Oil that is Famous—Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far enough to attest its excellence, for in all these countries it is on sale and in demand.

In England, there are, according to the latest statistics, among others, 312 women physicians, 389 women journalists, 219 women public workers, 622 female cab drivers, 74 women chiefs of sweeps, 428 female smiths, 493 female drummers and 3,669 professional painters.

Nine-tenths of the tea imported to the United Kingdom comes from India and Ceylon.

MOTHER SAVES DAUGHTER'S HEALTH

Lydia E. Pinkham's Vegetable Compound Helped Both Mother and Daughter

Lumsden, Saskatchewan—"My mother had taken Lydia E. Pinkham's Vegetable Compound and when I took it and got good results. I recommend it to women with any female troubles and I know other women who have been helped by it and do the same. Mrs. Max Hertz, Lumsden, Saskatchewan.

Many cases like this come to our notice. Lydia E. Pinkham's Vegetable Compound is recommended by the mother and the grandmother for all female troubles. It has been helping women for nearly fifty years.

Women Tell Each Other

In your own neighborhood are women who know the value of this wonderful medicine and they tell you about it. So if you are troubled with pains and irregularities, a first-class medicine, or have other annoying symptoms caused by some female trouble, you have only to ask some neighbor what she thinks of your taking Lydia E. Pinkham's Vegetable Compound.

New Egyptian Flag

It is announced that the new Egyptian flag will be green with three white stars and a white crescent. The royal flag will have in addition a crown.

Minard's Liniment Lumberman's Friend

German Money Makers

Presses and Engravers Inadequate to Meet Demand

A terrible tragedy has transpired in the German Government's bureau of engraving and printing. Plates cannot be engraved fast enough and presses run fast enough to turn out thousands of paper money notes. Germany's paper note printing presses have reached their physical limit and the demand for paper money still greatly exceeds the supply.

Solving the dilemma, the German Government for the first time in the history of the mark has decided to print and issue 5,000,000 marks, which are the impressive 1,000-mark bills. The new 5,000-mark bills will appear on the market in the course of the summer. Germany's largest monetary unit, the one thousand mark note, is worth at today's rate of exchange \$3.50, and the smallest paper note, that of 1 mark, is worth 3 1/2 cents.

No surgical operation is necessary in removing corns if Holloway's Corn Remover be used.

Alberta as a Seed Producer

Where Oats and Other Cereals Reach State of Perfection

Alberta, it is officially stated, has supplied the rest of Canada with a half million bushels of seed oats this spring. It is equally significant that orders came from every other province in the Dominion. As a seed-producer this province is only getting started, but it is getting started right, and is already securing results. Alberta stands in a class by themselves; no other part of the continent can produce either the quality or the quantity per acre. What is true of oats is true of other grains, and of grasses and vegetables. We may not grow here as wide a variety of crops as the southern provinces, but we have lower altitudes, but what can be grown is grown to perfection. More and more the other provinces and the states will recognize that they must come to Alberta for hardy and reliable seed. Much credit for what has been attained, and for the greater achievement in prospect, is due to the persistent and successful efforts which have been made by the faculty of agriculture at the University to increase the production of seed. As a seed-producer to direct their operations in a way to build up a high reputation for their product. And the showing made last year and the year before, when Alberta exhibits carried away a good many of the coveted awards at the international fair and grain show at Chicago, has not been barren of practical results. It pays to produce the best; and then to let the world know that we have it.—Edmonton Bulletin.

Are Britons Decadent

Idea Disputed by Statistics of University Boat Crew

In the annual university boat race between Oxford and Cambridge which came off a month or so ago, the eight oarsmen in the Cambridge boat averaged six feet one and three-quarter inches in height and one hundred and seventy-five in weight. Two of them weighed respectively six feet two and six feet four and a half in height. The Oxford eight averaged six feet half an inch in height and 172 pounds rowing weight. The gigantic Cambridge crew were as good in the boat as they were big; they won in very fast time—almost the fastest of the records of the university boat race, which go back now nearly a hundred years.

It was the fashion before the war to talk of the physical decadence of Englishmen, the text being afforded by the underfed and undersized inhabitants of the slums of the great industrial centers. But the war has shown millions of vigorous men in the British army and navy, and several millions of effective men in the coal mines, engineering works, shipyards and other home work in the British Isles, and the idea that any large proportion of the adult male population of Britain was effete was dispelled. And judging by the statistics of the latest university boat race, showing two exceptionally powerful crews physically, one of them, probably the finest ever completed, the well-to-do class in England are still at the height of stamina.

Cynosure Means Tail of a Dog

We are accustomed to hear a conspicuous object or individual referred to as the "cynosure" of all eyes, with perfect realizing that the word is derived from a Greek expression meaning, "The tail of a dog."

The constellation now familiar as Ursa Major was called "Cynosure" by the Greeks and the shape suggested a dog with the polestar as its tail. Milton, in the lines in "Allergo which run" "Where perhaps some beauty lies. The cynosure of neighboring eyes," has given the word its modern significance.

Imperial Eureka Harness Oil does more than simply coat the surface of the harness. It penetrates to every fibre of the leather, making it soft, strong and pliable. Stops Bronchitis Quickly, Helps Irritable Throat, Ends Sneezing, Coughing

Relief comes at once when you breathe in the soothing vapor of catarrhine. Once its healing, penetrating essence strikes the bronchial tubes, you realize that a powerful treatment is at work. Irritation can't live in the throat of a person inhaling Catarrhine. It is so soothing, so warming, so full of concentrated healing power that you get results at once. Catarrhine strengthens the weak throat, stops the cough, removes that hacking irritating necessity to clear the throat, makes even the chronic sufferer realize that at last he has discovered a real friend. For coughs, colds, catarrh and winter colds, nothing in the family could be better than the complete dollar outfit. Small size 50c. Trial size 25c. All dealers or the Catarhizone Co., Montreal.

Unbreakable Glass

Behemian Inventor Has Apparently Met With Success

According to recent reports a Bohemian inventor, after 13 years of research, has succeeded in producing unbreakable glass. At a recent demonstration, it is said, plates and vessels of the material remained whole when thrown to the ground from a height of 12 ft. Meat was roasted on a thin glass plate over an open fire at a temperature of 750 deg. F. Tin was melted in a glass pan and pills were driven in a piece of hardwood, using a piece of glass for a hammer.—From the June Popular Mechanics Magazine.

There are seven joints in a giraffe's neck, the same number as in the neck of a man.

Headache

Recurring headaches usually come from an exhaustion of the nervous system, and they do not disappear until the vigor of the nerve cells is restored by such up-building treatment as Dr. Chase's Nerve Food.

Temporary relief by use of powders is often obtained at an enormous expense to the nervous system and the general health.

Get the nerves right and the headaches will not return.

Mrs. W. J. Pearce, Nunn St., Cobourg, Ont., writes:

"My system became run-down and I suffered greatly with pain in my head. This was so severe that I would have to bind a cloth tightly about my head so that I could get my work done. A friend advised the use of Dr. Chase's Nerve Food, and after taking the first box I found quite an improvement in my condition. I continued using them until I had taken about seven boxes, and my system strengthened and built up, my system splendidly, completely relieving the pain in my head."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

WORLD HAPPENINGS BRIEFLY TOLD

Goods in kind, to the value of \$80,000,000 of gold marks were delivered to the allies by Germany during the first three months of the present year.

Winter wheat production in the United States this year was forecast at 581,785,000 bushels by the Department of Agriculture, which announced the condition of the crop on May 1 at 83.5 per cent. of normal.

James R. Davis, Federal Prohibition Director for Michigan, has asked headquarters at Washington for three motor boats of high speed to aid in curtailing liquor traffic on the Detroit River.

The University of Saskatchewan is experimenting with a scheme for domesticating the buffalo. Buffaloes in the Canadian prairies are increasing so rapidly that they will soon be on the market for food.

The United States Government in its negotiations with Mexico over the question of United States recognition has asked guarantees of religious freedom in that country, it is stated on high authority.

Over 50,000 Government employees in France are being dismissed for reasons of economy. The wholesale dismissals will mean a saving of 300,000,000 francs. Most of those dismissed were taken on as auxiliary servants in the war period.

Somewhat of a sensation has been caused by the announcement of Rev. G. Quinlan Warner, of Crony Memorial Church (Anglican), that he is calling a meeting soon for the discussion of the possibilities of a faith-healing cult.

Wizoo, approximately 10 years old, known as the Queen of the River Reserve Indians, died near McLeod Lake, 12 miles north of Whitecourt, according to word reaching Edmonton. Her husband, who died three years ago, was believed to be 104 years old at the time of his death.

RHEUMATISM?

Health is the Most Valuable Asset You Have. You cannot afford to neglect it.

Crofton, B. C.—"I was troubled for years with inflammatory rheumatism and rheumatoid fever. I tried several cures for rheumatism, but did not receive any benefit from any of them. I had been in a hospital for months, being unable to walk. A friend advised me to try Dr. Pierce's Auric Tablets. After taking the first bottle I began to improve, and after taking six bottles I had no more rheumatism. I think Dr. Pierce's Auric Tablets are the most wonderful medicine that any one can take for rheumatism. I have recommended these tablets to several of my friends and they, too, have all been benefited by them."—Melville Collins.

People are realizing that the kidneys, just as do the bowels, need to be flushed occasionally. The kidneys are an eliminative organ and are constantly working, separating the poisons from the blood. Urine acid backs

GOVT. CREAM GRADING

Elimination of the cream buying and grading stations, and the inauguration of the system of government grading, which came into being last Tuesday has had its immediate result in the announcement of an increase of five cents per pound paid to the farmers for cream. This announcement was made by E. T. Love, secretary of the Alberta Dairy-men's Association, who said that the new high price was being paid by all creameries in Alberta.

Inauguration of "Government grading of cream has placed cream grading on such a basis of certainty that the dairies and creameries now feel justified in fixing immediately a premium for high grade cream, high enough to make a substantial inducement for farmers to produce the highest grade. Hitherto, with the grading of cream, a great uncertainty in this differential price between

grades was kept so close as to offer little inducement. Now, another five cents has been added to this differential and the producer of cream finds himself faced immediately, as a result of the operation of the new system, with a factor that gives him the greatest encouragement to produce the very highest grade of cream his herd and his equipment is capable of producing.

Over thirty Government graders were at their posts in different parts of the Province last week, entering enthusiastically into the spirit of the new movement calculated to set the dairying industry back upon its feet.

Before being sent to their posts the Government graders underwent a short course of instruction under the directorship of C. P. Marker, dairy commissioner, at the University at Edmonton. At the last session of this short course the graders, as well as representatives of creameries, were addressed by officials of the Department of Agriculture on the importance of their duties. Hon. Geo. Hoadley, H.A. Craig and Mr. Marker all emphasized that fact that the Department was looking to the new system of grading and marketing of cream to bring about a revival of the dairy industry in the Province and to put it upon a basis that would eventually bring it to the stage of the most important branch of agriculture, and in addition recover markets which Alberta has formerly had.

The particular function of these graders will be to grade the cream delivered at the creameries. They will have nothing to do with setting the price for cream, nor will they act in any way as an arbitrator between the creameries and the farmers.

The Dairy Commissioner, Mr. Marker, has expressed the opinion that the new system will bring the production of high quality cream back to where it was in 1919, in one year, and in two or three more years the industry upon a more satisfactory basis than it has ever known in the Province.

The new system of Government grading of cream is the first to be inaugurated in the history of Canada, and so far as is known in any other country.

RED CROSS NOTES

The formal opening of the Junior Red Cross Children's Hospital, which is now established at 522 18th Avenue West, Calgary, will take place Friday, when His Honor Lieut. Governor Brett will preside. There are already a number of children being treated in this institution, which is devoted to cases which are taken up by the Junior organization. The Junior Red Cross looks after cases of sick and crippled children whose parents are not in a position to supply them with proper treatment.

The Foremost branch of the Red Cross are organizing and expect to extend the scope of their work considerably. They are paying special attention to the development of the Junior Red Cross.

Pincher Creek Red Cross Juniors are very active. In the various schools of the district the Junior members are working on health posters, some of which may be used as models for other units.

Films for use in the Red Cross health education campaign are expected to arrive in Alberta shortly. A special appropriation for this work has been made by the National Executive.

A great many harsh things have been said about matches, but all the evidence goes to show that the careless users were really the guilty persons.

He who plants a tree lightens the burdens of his fellow-men. He who plants a tree erects to himself a living monument and makes hold an attempt to leave the world more beautiful than he found it.

Two thousand years ago, the great apostle wrote "Behold what a great matter a little fire kindleth." Today, it gets the same little start and works the same big havoc.

WAINWRIGHT, ALBERTA, MAY 24th, 1922.

MUNICIPAL

HOSPITALS

Not so very long ago a man living alone in this district was ill. After some days a doctor was called and he found the man suffering from influenza in a crude habitation. His friends were few and had little knowledge of nursing. The man died. Sickness is no respecter of persons. At any time and at any place each and every one of us are liable to meet with an accident or be afflicted with some disease. Any one of us may or may not be situated where a doctor is easy to call or nursing to be had. It may mean to each one of us, as it has meant to others, life or death. There is no exaggeration in the foregoing. Any country doctor will tell you that time and time again he has been at his wits end to know what to advise in cases of sickness. At present there are only two things to do, one, to let the patient stay at home and trust to providence that he or she may get better and the other to send the patient to an Edmonton hospital, with all the consequent worry and expense. It was to do away as far as possible with these conditions that the Provincial Department of Health launched its Municipal Hospital scheme. Most of us who were at Wainwright two and a half years ago know that this scheme met with ignominious failure here; that sectional rivalry killed a perfectly good scheme. Since that time municipal hospitals have been opened at several points, the hospital at Viking being opened not so very long ago. As far as we can learn the ratepayers in the various hospital districts are well satisfied with their choice. For a moderate sum they can have a doctor always near and first class nursing at hand. The tax view point to us is the least important. A tax to be used solely for hospital purposes, we do not believe would be hard to obtain. Almost every person is prepared to help in times of sickness and this is really what a hospital tax means.

SOIL CONDITIONS

PERFECT

If ever the hackneyed expression "A Million Dollar Rain," was justifiable, it was when referring to the rainfall of last week. There is no doubt that the moisture has been evaporating very rapidly during the last few weeks, and although farmers and others interested were saying very little about the matter, all were watching hopefully for the change in the weather. Late Monday evening the clouds thickened and a light drizzle began to fall. After midnight it turned into a steady, though not heavy rain. Continuing until about six in the morning, it then turned into damp snow which melted as it fell.

Although there are no official figures as to the amount of precipitation during the twelve hours, it is estimated that nearly an inch fell. Farmers reported that the ground was wet down to a sub-soil moisture.

The rain never came at a better time, as all the wheat was in, and much ground was already prepared for oat and barley seeding. About one half of the wheat is above ground and looks strong, and will go along now for some weeks without further rain. Careful enquiries show that about 20 percent of the crop in this district will be wheat, while to the south east twenty or thirty miles, full half the acreage sown will be that cereal.

It used to be an old rule in the early days of Alberta that oats sown by the 24th of May would ripen, so there is at least a week left for safe oat seeding. Barley is fairly safe if sown by the first of June. Those who had their gardens in can rest assured that they are off to a good start, and the success of them is practically assured. All that is necessary now will be plenty of work with the rake and hoe.

Reply Of Russia Considered As Basis For Further Negotiations

Genoa.—Russia's reply to the Allied memorandum, which was presented to Signor Schanzer, president of the economic conference, is generally regarded as conciliatory. At least it is considered a basis for further negotiations.

His suggestion that all the tangled financial problems be submitted to a mixed committee of experts named by the Genoa conference, provides a means of escape from the present superheated atmosphere, which appears to be unfavorable for the settlement of the property question, which Great Britain and lesser powers will approve.

France expresses great disappointment at the reply and Belgium is far from satisfied. M. Barthou, head of the French delegation, declared after

an examination of the text that the reply did not get anywhere and was not really an answer to all of the Allied proposals. Consequently, it will not be certain until after he has conferred with the Government in Paris whether the Russian proposals will be accepted by the French as a basis for continuation of the discussion.

In the meantime the future of the conference is highly uncertain. Some of the delegates believe it will close precipitately, or perhaps it would be truer to say that they hope it will last six weeks longer and go into the Russian financial tangle in great detail. The latter seems to be in the majority and indications are that the conference may be prolonged indefinitely.

TEXT OF ALLEGED MILITARY PACT SIGNED BY SOVIETS AND GERMANY

Paris.—The newspaper L'Esclaire prints the text of a military convention to have been signed by representatives of the Russian Soviet army and the German general staff in Berlin on April 3, this year, by the principal clause of which the Germans undertake to furnish the Red Army with the arms and material necessary to equip 180 regiments of infantry and sufficient heavy field artillery for the 20 infantry divisions.

The German general staff, according to the alleged convention, undertakes to re-organize the Russian Baltic and Black Sea fleets and supply at the earliest possible date 500 new aircraft together with a supply of spare parts and 150 field wireless outfits.

The Germans would train sixty Russian instructors in the latest discoveries and inventions of chemical warfare and send experts to Russia to speed up the existing munitions plant and open new ones. The Red army staff on its side guarantees the establishment in Russia of three German

plants, one for the manufacture of airplanes, one for poison gas and one for arms, on condition that the Russian army can use the output when needed.

German specialists would be admitted to the new arms factory in Afghanistan.

The alleged text printed by L'Esclaire also says the Russians would undertake to maintain not less than 15 infantry and eight cavalry divisions on the Western Russian frontier. The red staff would further undertake to increase capacity of the Alexandrovsk and Nikolaevsk railroads. Finally the alleged convention says the two staffs will prepare a joint plan of operations for securing Russian access to the Baltic Sea, and the contracting parties bind themselves to keep the convention secret. The document is signed, according to the newspaper, by Levinski, Stalin, Major-General Von Zolde, Vice-Admiral Behncke, Lieut. Scharf and Major Petter.

Vancouver as a Grain Port

Western Wheat Shipments Through B.C. Increases. \$948,068 bushels of Western Canadian wheat has been shipped through this port to British and foreign markets this season, as against 640,000 bushels in 1920-21, according to statistics published here by the Vancouver merchants' Exchange. From October 1, 1921, to April 31, this year, shipments to Japan amounted to 2,858,079 bushels; to the United Kingdom, 3,189,327 bushels; and to the United States, 6,666 bushels.

Krupps Entitled to Royalties. Washington.—The American Government finds itself under the revived patent treaty with Germany faced with the necessity of paying royalties which may reach \$5,000,000 to the Krupp firm on patents based on discoveries of American engineers. Thomas W. Miller, alien property custodian, declared.

Peace Negotiations Fail. Dublin.—The peace committee of the Dail Eireann, which has been making efforts to find a ground upon which the factions in Ireland could unite, has failed to reach a basis for a settlement it has been announced.

Lord Northcliffe Says Embargo On Cattle An Insult To Canada

London.—Declaring that he was very glad that he declined to become a member of the Coalition Government of Great Britain, it only because he would not want to be "one of those who helped to begin the end of the British Empire by losing the prairie provinces of Canada," Lord Northcliffe devoted the greater part of an address at a luncheon of the Empire Press Union to condemning the "great slur we place upon the people of Canada" by the embargo on the importation of Canadian stock cattle. Lord Northcliffe is honorary-treasurer of the Empire Press Union.

Lord Northcliffe said: "We are not watching Canada closely enough, especially as to what is happening in the prairie provinces. One of the cleverest men I ever met, Lord Shaftesbury, said to me 20 years ago: 'I wonder if I am right in thinking that the future of the empire is largely wrapped up in what happens in Alberta and Saskatchewan.'"

Continuing, Lord Northcliffe said: "I don't blame the British people for not giving attention to Canadian affairs. If we were issuing papers in New York—which God forbid—I should not give much attention to affairs in Australia or New Zealand,

but should concentrate, as the American papers now very largely do, on the more interesting foreign affairs of the moment. Englishmen often very frankly say they are bored with this matter of the great slur we place upon the people of Canada by reason of the embargo on their cattle. One or two public men, Lord Beaverbrook in particular, have realized this problem. I have not his knowledge of Canada, though I certainly share his admiration for Canada.

"Canadians are not a very noisy people. We did not hear much about them going into the war, but they went in, and when there, they did great things. They are not talking very much about the embargo, except in the prairie provinces, which are far removed from Montreal and other great news centres.

"I assure you that while you can say to Canadians, 'You shall not enter our house,' you cannot say to them 'you shall not enter because you have a loathsome disease.' I have talked about this repeatedly with English stock breeders. It is purely a question of protection. Formerly it was a concession to the Irish, but it is no longer an Irish question at all. This thing affects the reputation of every Canadian farmer."

Alberta's Natural Resources Question

Edmonton.—Alberta's campaign for the recovery and control of its natural resources will be continued along lines to be submitted at once to the Executive Council of Provincial Government, with the chance in favor of this province having to seek terms on a somewhat different basis from the other prairie provinces because the situation is different in the case of Alberta from that in either Saskatchewan or Manitoba. Whether or not any definite settlement of the question can be put through the Dominion House at the present session is not certain, but at the moment the prospects in that direction are not as bright as might be desired.

Baltic "Entente" Formed

Alliance Said to be Cornerstone for Europe's Peace. Riga, Latvia.—The Baltic "Entente" formed by Poland, Estonia, Lithuania and Finland in a convention held at Warsaw in March is hailed by the Baltic press as a cornerstone of peace for this part of Europe.

Representatives of the four countries mutually agreed that all conflicts and disputes between them should be settled in an amicable manner only.

All important questions upon which the four may be unable to agree are to be referred to a court of arbitration in accordance with the rules of the League of Nations.

Each of the four contracting States is obligated in future to inform the other three States of the texts of agreements concluded by that State with any other nation.

The convention is to hold good for five years and to be automatically renewed thereafter from year to year, unless notice of future notice of abrogation is given. It is in diplomatic circles that Lithuania may join the Baltic Entente cordiale later.

Regina Coat of Arms Presented to Liner

City Appreciates Selection of Name for New Steamship

Montreal.—Mayor James Grassick, of Regina, presented the White Star Dominion liner Regina with a replica of the city's coat of arms at a luncheon aboard the new passenger liner. Nearly three hundred agents and friends of the company were entertained.

P. G. Ward, representing Premier C. A. Dunning of Saskatchewan, and the Reginald Board of Trade, were also present, and together with the mayor voiced the city's appreciation of the selection of her name for the new vessel.

For Peace of Europe

Closing the Ranks Against Tyranny of Brute Force, Says Lloyd George

London.—Premier Lloyd George has sent the following telegram to the Congregational Union of England and Wales, in response to the Union's message to him assuring him of the organization's sympathy and support in his efforts to secure the peace of Europe.

"The humanitarian forces of the world are closing their ranks in the new crusade against the tyranny of brute force. Genoa has sounded the tocsin of peace. We shall not rest until we have won."

Increase in Food Prices. Washington.—An upward trend in the retail cost of food was noted in statistics made public by the Bureau of Labor Statistics of the Department of Labor. Reports from 15 cities showed increases from March 15 to April 15, ranging up to three per cent, while only four reported decreases and only one of these, Fall River, with two per cent, showing more than one-half of one per cent decline.

English Second Official Language

London.—The assembly of the International Institute of Agriculture has decided to adopt English as the second official language for the institute's bulletin. Says Reuter's Rome correspondent, crop reports will be distributed by telegram to the various countries that are members of the institute.

Will Not Fight Unless Compelled

Tien Tsin.—Chang Tso Lin, the defeated Manchurian General, is reported to have fled to Dairen. Observers say his troops have established three lines of trenches this side of Luanchow, on the Mukden railway south of the Great Wall, but will only fight if General Wu Pei-fu's forces press them too hard.

Premier Hughes Denies Report

London.—Premier William Hughes, of the Australian Commonwealth, says Reuter's Melbourne correspondent, denies a newspaper statement that he favored cutting up West Australia into three States. He says there will be time to talk of sub-division when they get many more people in Australia.

Bringing Big Sugar Shipment to Canada

Cargo of 6,000 Tons Largest Ever Shipped from Jamaica. Kingston, Jamaica.—The Canadian Pacific steamer Montezuma sailed for Montreal with 6,000 tons of sugar, the largest cargo of sugar ever shipped from this island. To date Canada has purchased over 75 per cent of the sugar crop of Jamaica.

VIOLENT STORM IN EASTERN MANITOBA

CYCLONIC WIND CAUSES GREAT DAMAGE TO DISTRICT EAST OF WINNIPEG

Winnipeg.—Sitting Manitoba at a point near Otonabee, about 30 miles east of Winnipeg, a cyclone swept farm barns from their foundations, wrecked a number of houses, blew down transmission towers of the Winnipeg Electric Company and the city hydro system, causing Winnipeg to be entirely without electric power for two hours; took down telegraph wires on both the Canadian Pacific and Canadian National systems, isolating the city from Eastern Canada by telegraphic communication for several hours and caused damage generally which will run into many thousands of dollars.

Reports state that several persons have been injured, but no fatalities were caused so far as could be ascertained.

Will Surmount Difficulties

King Assures Belgium of British Empire's Sympathy

Brussels.—King Albert gave a banquet in the palace to King George and Queen Mary. In toasting his royal visitors, King Albert said Belgium still was suffering from the destruction and the economic troubles caused by the war. The King added that Belgium needs at the same time, reparations, peace, work and security, a complex necessity which had determined the policy Belgium had resolved to pursue in full agreement with her allies.

Replying, King George said if there was one thing certain in the uncertain epoch which the world was passing, it was that the difficulties of Belgium could rapidly be surmounted, thanks to the wisdom of Belgian statesmen and the indomitable vitality of the Belgian people. He added that in her progress towards the great future ahead of her Belgium always would have the sympathy of the British Empire, which fought beside her in the war.

Fill Vacancy in Supreme Court

Ottawa.—It was announced by the department of Justice that David A. MacDonald, K.C., of Vancouver, has been appointed to be a judge of the Supreme Court of British Columbia. The appointment fills the vacancy caused by the death of Mr. Justice Clement.

N.S.W. Wheat Harvest

London.—According to Reuter's Sydney correspondent, the New South Wales Government statisticians report that the wheat harvest amounted to 42,650,000 bushels averaging 14.3 bushels per acre.

Propose Commercial Pact

London.—Lord Winterton, speaking for the Government, told the House of Commons in answer to a question, that negotiations were in progress for a commercial treaty with Spain.

B.C. Maps For British Ambassador

Victoria.—Premier John Oliver sent special maps of British Columbia prepared by Major G. Gaitken head of the Government Map Department, to Sir Auckland Geddes in Washington, British ambassador to the United States. When Sir Auckland was in Victoria a few weeks ago with Lady Geddes, he told the Premier that he was particularly interested in British Columbia, being the coast province of Canada on the Pacific. He asked the Premier for maps so that he could have the latest geographical data on this province for use in the embassy.

Naval Policy Of Present Government Provides For Drastic Cut

Floods Cause Immense Damage

Assiniboine River Overflows Banks and Ruins Crops

Winnipeg.—Heavy rains have contributed to a further rise of the Assiniboine River and protecting dykes along its banks have been swept away and the water is now creeping over thousands of seeded acres hitherto out of danger.

A fleet of flat boats has been put into operation in the Poplar Point area, and farmers are paddling to and from town releasing many persons who had been marooned in the upper stories of their homes. Four thousand acres of seeded land is now under water there. Farmers in many districts are driving their cattle to the bush and removing their valuables to safe spots in the hills.

For a 12-mile strip, three miles wide, the river has overflowed its banks at several points. In this district, are leaving their homes and seeking shelter in the high lands near Marquette. With the help of nearby farmers they have driven their cattle to the hills. The prospect is that about \$500,000 has been washed away, 40 sections of seeded land being inundated.

Want To Do As They Please

Victoria Ratepayers Against Enforcement of the Lord's Day Act

Victoria.—By an overwhelming vote, Victoria ratepayers voted against the rigid enforcement of the Lord's Day Act as recently proposed by the Victoria police commission.

When the citizens and storekeepers declined to observe the order of the commission, a plebiscite on the subject was ordered. Leaders of the Lord's Day Alliance, including Dr. Rochester of Toronto, have declined to recognize the legality of the local plebiscite and the outcome of the matter still is doubtful. The vote, however, is said to equal almost 7 to 1 against the Lord's Day Act.

Better Grade of Cattle

Toronto.—Returns from the Assessors' Department of the various townships in Ontario show that a reduction of more than 50 per cent, in the number of grades and records at the head of dairy herds has been accomplished during the last year.

The campaign to get rid of these undesirable, which was first received rather dubiously, is now being enthusiastically supported in all parts of the country.

Confers Degree on General Pershing

Montreal.—General John Joseph Pershing, commander-in-chief of the United States forces in France, during the war, was honored by McGill University, which conferred upon him the degree of Doctor of Laws.

After the ceremony, General Pershing was the guest of the Canadian Club at luncheon in the Windsor Hotel.

Declares Independence

Tien Tsin.—A declaration of independence has been issued by Chang Tso-Lin, Governor of Manchuria, whose forces are in retreat after their defeat by the army of General Wu Pei-fu.

Propose Truce in Eastern Europe

Genoa.—Great Britain has proposed a truce in Eastern Europe on the basis of the de facto frontiers pending the conclusions of a commission of inquiry to be appointed, it is announced.

 Price of **\$150.00.**

S. R. Bowerman
 THE HARDWARE MAN

On Friday last Mr Cottrell,
 who has been suffering from
 paralysis for some time was taken
 to Edmonton by his daughter.

The Greenshields Community
 club will give a dance in the
 Morrison barn on May 30th when
 all are invited. Good music and
 refreshments. Tickets 50c.

If you are thinking of selling
 your car, let me increase its
 value. Stott's Auto Paint Shop.

The big annual sports day at
 Vermilion is slated for June 7th,
 and no doubt many will run over
 to our sister town on that date.

Miss Hazel K. Brunker was
 one of the class of fourteen
 nurses who graduated from the
 Royal Alexandra hospital on Fri-
 day last and took the "Florence
 Nightingale" pledge. The big
 gathering was held in Convoca-
 tion hall at the university.

The Women's Specialty Shop
 has a new shipment of Ribbed-
 top Cotton and Lisle Hose now in

A movement is on foot for the
 formation of a Tennis club for the
 season, and all interested in this
 pastime should get in touch with
 either Mr E. Frickelton, or Mr D.
 Wade.

LOCAL INTEREST HAPPENINGS

It is hoped that a large bunch
 of fans will be out this afternoon
 at 3 p.m. to witness the baseball
 game at the Fair grounds.

We are glad to know that Mr
 O.M. Lewis is now so far recovered
 as to be able to use his new
 wheeled chair.

Dr A. W. Macbeth, of Edmon-
 ton, was in town on Tuesday last
 holding a clinic for women's and
 children's diseases.

Thursday last saw the depart-
 ure to the coast of Mrs Liddle
 and her two sons, and although
 all are sorry to see them go we
 wish them prosperity in their
 new surroundings.

The Eden Washing machine is
 sure a winner. Sold on easy
 terms by the Wainwright Pharm-
 acy.

Mr E. A. Ripley was a visitor
 to town from Edgerton last week
 end, accompanied by Mr E. Clen-
 dennis.

The Montgomery store is the
 latest to install a dandy sun-blind
 and improve the appearance there
 by.

Mr J. Weir of Brookberry, P.Q.
 is paying a visit to Mr and Mrs
 E. Cork, staying over while return-
 ing from a holiday in the Okana-
 gan Valley.

The senior girls of the C.G.I.T.
 group will give a concert at the
 Gilt Edge Orange hall on the
 evening of Friday, June 2nd.
 The proceeds are in aid of the
 local camp fund, and it is hoped
 that as many as possible will at-
 tend.

For cedar posts, fencing, side-
 walk, and building materials go
 to the Atlas Lbr Co. J. Welch
 manager.

Sympathies are being extend-
 ed to Miss Margaret Spence,
 who, on Saturday last, suffered a
 nasty fall. Dr Wallace was soon
 in attendance, and although the
 patient was in a comatose state
 for some time she is now recover-
 ing nicely.

Make your old car like new. A
 good job guaranteed at Stott's
 Auto Paint Shop.

A meeting of the directors of
 the Agricultural society will be
 held in the Town hall on Tuesday
 evening next at 8 p.m. to decide
 matters in connection with hold-
 ing fairs this year. As this is a
 very important meeting all mem-
 bers of the society should make a
 point of being present with the
 directors.

Mr R. Wakefield arrived from
 Tawatinaw last week end and
 spent a few days renewing old
 acquaintances. He asserts he is
 well pleased with his new location.

Just opened up; a new line of
 Special Out-size Ladies' Under-
 wear at the Women's Specialty
 Shop.

We learn that by a mutual
 agreement between the Presby-
 terian and Methodist churches at
 Tofted a Union church will be
 conducted. In future, the
 matter having been decided by
 the presbytery on Monday. This
 is the fourth point in this pre-
 bytery that has decided to take
 this step during the past year.

Among the successful basket
 ball artists who were given an
 ovation upon their return to Ed-
 monton on Monday from an east-
 ern tour was Miss Daisy John-
 son who is in charge of the school
 at Lewisville.

We are sorry to know that Mrs
 F. Horne has been called to Win-
 nipeg by the news of the serious
 illness of her mother.

Mr J. Tolmie was had the in-
 terior of his home remodelled and
 finished in hardwood and edge-
 grained lumber.

Messrs H. Ward and T. Liss-
 more, were week-end trippers to
 the city.

See the new Vacuum sweeper
 at the Wainwright Pharmacy. It
 will lighten the housewife's
 burden.

Mr M. W. Misener, the well-
 known piano tuner from Edmon-
 ton will be coming to Wainwright
 and Viking during next week, and
 persons requiring his services
 should leave orders at The Star
 office right away.

Mrs Fred Moffatt, with her two
 children, who has been spending
 the past month visiting her
 mother Mrs P. Laird, returned to
 her home at Prince George, B. C.
 on Monday last.

Sound large split cedar fence
 posts at the Atlas Lbr Co.

Miss H. McGregor, from Ed-
 monton is the guest of Mrs Geo.
 L. Hudson for a short visit.

Messrs E. Frickelton and F. G.
 Cope are the latest additions to
 the list of Ford car owners.

Miss W. Gosnell, who has been
 with the local branch of the
 Bank of Montreal for some time
 relinquished her position on Mon-
 day last.

Mrs W. T. Brunker will receive
 on Wednesday next, May 31 from
 4 to 6 p.m. in honor of her mother
 Mrs S. Simmons who is visiting
 her.

Miss A. Brown, of Metiskow,
 arrived at the week end to fill a
 position at the Bank of Montreal.

Her many friends will be glad
 to know that Mrs H. Ward has
 returned from the hospital after
 her operation. Although still weak
 the patient is recovering nicely.

The Star staff spent the week
 end in the city and while there
 visited with their different friends.

SUMMER SCHOOL FOR TEACHERS

Plans are now practically com-
 plete for the summer school for
 teachers to be held at the Univer-
 sity at Edmonton from July 3rd
 to August 12th, under the aus-
 pices of the Department of Edu-
 cation. Transportation costs will
 be refunded to teachers under the
 usual conditions. Courses to be
 given include Elementary Science
 High School Science, Household
 Economics, Industrial Arts, and

OIL COOK STOVES & OVENS

MEAN COMFORT IN THE KITCHEN IN HOT WEATH-
 ER. WHY ENDURE THE DISCOMFORT OF A SWELT-
 ERING HOT HOUSE WHEN A MODERN OIL-BURN-
 ING COOKSTOVE CAN PRESENT IT

SWAT THE FLY

Start early and "swat the
 fly". Keep the pests out of
 the house with screen win-
 dows and screen doors. We
 have them — also screen
 cloth. If any get inside the
 house by any chance use one
 of our fly swatters on them.
 Keep home free from flies.

GROW A GARDEN

A good garden is a nice
 thing to have. It provides
 fresh vegetables for the
 table, and also provides an
 interesting occupation for
 the spare minutes. We carry
 all the requirements—hoes,
 rakes, forks, etc., also a full
 line of garden seeds.

WASHBURN'S

IF IT'S HARDWARE

WE HAVE IT

Art Primary Work, Physical Edu-
 cation, Music, courses for Brit-
 ish and American teachers, courses
 for first class certificates,
 special courses, university subject
 leading to B. A. or B. Sc. degree.
 Courses will be based on the new
 elementary school curriculum.

Banknotes are said to have
 been used in China nearly 5,000
 years ago.
